DETAILED ACTION

Allowable Subject Matter

Claims 1-67 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention is directed to a method and system for preventing unauthorized access to stored data. Each independent claim periodically verifies the identity/authorization status of a computer/device during requests for access to stored data by the respective computer/device. The closest prior art, Kadansky (U.S. 6,658,004) discloses a conventional system for communicating requests for data between two computing devices fails to anticipate or render obvious the above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
